

If you have...

- ✓ Multiple Locations
- ✓ Public Safety Policies
- ✓ Code Compliance Inspections
- ✓ Risk Management Strategies
- ✓ Budget vs. Results Needs
- ✓ Personnel Changes
- ✓ Eco, Green, or LEED-friendly Facilities
- ✓ Collaborative Departments

... one decision can make all the difference.

# CODEpliance is that decision.

1. **Longer replacement cycle**—lower operating costs
2. **Mitigate Risk** —improve fire safety profile
3. **Improve Insurance Rating**—discounted premiums
4. **Compliance Preparedness** — forecast & fix problems before Inspection failure, fine, or business delay
5. **Routine Maintenance**— Approval at purchase needs upkeep to ensure continued successful testing

## FLAME RETARDANTS

- ☑ Non-toxic & Environmentally-safe
- ☑ Water-based, food-grade products
- ☑ Class A or Class B results (per Code)
- ☑ On-site or Off-site treatment options
- ☑ No odor, color, residue or change in feel

## CLEANING & MAINTENANCE

- ☑ Increase Useful Life; Decrease Annual Budget
- ☑ Work with In-House Facility Services
- ☑ Difficult items—stage curtains, upholstery, drapes
- ☑ Eco- & LEED-friendly processes
- ☑ Custom, Annual or Seasonal Programs

## FIRE CODE COMPLIANCE

- ☑ Formal and Current Flame Certificate
- ☑ Prepared for Fire Marshall or AHJ inspection
- ☑ Standardize across buildings & facilities
- ☑ Electronically stored documentation
- ☑ Automatic expiration/renewal reminders
